TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

ROCKINGHAM, SS.

[L. S.]

*To the Inhabitants of the Town of Auburn, in said County,
qualified to vote in Town Affairs:*

You are hereby notified to meet at the Town Hall in said Auburn on Tuesday, the thirteenth day of March, next at ten o'clock in the forenoon, to act upon the following subjects:

First. To bring in your ballots for:

Town Clerk for the ensuing year,
One Selectman for three years,
Tax Collector for the ensuing year,
Town treasurer for the ensuing year,
Highway agent for the ensuing year,
One library trustee for three years,
One cemetery trustee for three years,
One trust fund trustee for three years,
Three auditors for the ensuing year,
Overseer of the poor for the ensuing year.
Police chief for the ensuing year.

At 1:00 o'clock P.M., the meeting will be open for the following articles:

Second: To see if the town will vote to incur debt for temporary loans in anticipation of taxes.

Third: To see if the town will vote to accept such trust funds as may have come in during the year and such trust funds as have not been previously accepted.

Fourth: To see if the town will vote to authorize the Selectmen to dispose of any or all property acquired by tax deed since the last vote so authorizing them to do so; said authorization to continue until such time as repealed at a future meeting.

Fifth: To see if the town will vote to use the income of the H. B. Burnham fund for schools or library.

Sixth: To see if the town will vote to authorize the Selectmen to negotiate long term notes or bonds in the amount of twelve thousand dollars (\$12,000.00), to be retired annually at the rate of \$1,000.00, plus interest; said notes or bonds to be for the purpose of completing alterations to the Town Hall. Adoption of this article to automatically include, and eliminate from the proposed budget, Town Hall permanent Improvement item in the amount of \$3,500.00.

Seventh: To hear the report of the Budget Committee and act thereon.

Eighth: To see if the town will raise and appropriate the sum of fifteen hundred dollars (\$1500.00) to tar and improve approximately eight-tenths of a mile of the so-called Deerneck road, beginning at the Londonderry Turnpike.

(by petition of—George E. Spofford, Orrin L. Chase, Elmer D. Allen, John Preston, Anthony Lambert, Cedric A. Davis, Ernest P. Corson, Carl Anderson, Carroll Moulton, John L. Taylor, John T. McKinley, Frank I. Mack, Mrs. Norman F. Milne, Robert J. Frisella, Malcolm A. Wood.)

(This appropriation recommended by Budget Committee.)

Ninth: To see if the town will vote to raise and appropriate the sum of \$73.00 (1/100th of one per cent of the town's valuation based on the 1950 assessment) to the Merimack Valley Region Association for the purpose of publicizing and promoting the natural advantages and resources of the town in cooperation with the other 37 communities in this Region, or act in relation thereto.

(This appropriation submitted without recommendation of Budget Committee.)

Tenth: To transact any other business that may legally come before the meeting.

Polls will open at 10 o'clock A.M. and close at 6 o'clock P.M.

Given under our hands and seal this nineteenth day of February, A.D. 1951.

WILLIAM M. DOLLARD,
ROY W. DAVIS,
JOSEPH P. LALIBERTE,
Selectmen of Auburn.

REPORT OF THE FOREST FIRE WARDEN

To Boards of Selectmen :

The successful control of brush and woods fires is highly dependent upon the cooperation of all townspeople in the prevention of these fires. To the end of enlisting this help, many wardens have asked us to assist them in preparing a brief statement which could be printed in the forthcoming Annual Town Report. This statement appears below and your cooperation in seeing to its publication will be helpful.
Concord, February, 1951 John H. Foster, *State Forester*

FOREST FIRE PREVENTION PAYS DIVIDENDS

Most forest fires are preventable because someone is responsible for them. State records for 1950 show 94% of 632 fires resulted from human perversness and carelessness. Refusal to secure the required warden permit before burning; failure to use good judgment, lack of equipment and assistance while burning; carelessness in smoking and poorly conditioned woods equipment (trucks, tractors, etc.) resulted in a total of 6090.6 burned acres with a loss of \$63,-949.10 in valuable property.

Fortunately, these human factors can be dealt with because people can be reached. This the local forest fire warden tries to do by informing his fellow citizens that EVERYONE MUST :—

1. Secure a written permit to burn in or near woodlands when the ground is not covered with snow.
2. Use good judgment in burning and have enough equipment and assistance to keep fire under control at all times.

3. Be careful when smoking in or near woodlands and refrain from throwing lighted material from automobiles.
4. Make certain that all equipment used in the woods is in good condition.

His success depends entirely upon public reaction to his appeals. He does his part—the rest depends upon YOU and

YOUR compliance with burning requirements

YOUR care with YOUR fires and YOUR smoking and

YOUR care of motive equipment you use in the woods.

It all aids, materially, in reaching the desired goal, the

PREVENTION OF FOREST FIRES—because PRE-
VENTION PAYS DIVIDENDS!

The wisdom of the district in expanding plant facilities has been demonstrated forcibly in the current year. The enrollments necessitated opening an additional room at the Village. In addition construction costs have definitely increased so that a delay in construction would have definitely resulted in an increased expense to the district.

The district is fortunately situated now as far as plant facilities are concerned. The plan of the present plant at the Village permits expanding facilities easily if the need ever arises. The "roughing-in" has been done in toilet areas so that sanitary facilities can be easily increased. Sufficient space is available to increase the capacity of the heating plant. The basic plan of the building has areas available for the development of future corridors without extensive alteration. The experience of other suburban communities has

been that the expanding population of the urban center has resulted in an increased school enrollment. With this fact in mind the wisdom of planning so as to allow for expansion is almost self evident.

The financial report of the construction of the Village addition is as follows:

Receipts:

Sale of Bonds	\$34,416.16

The completion of the addition has resulted in an elementary school plant that is one of the best in the area. The facilities are such that an educational program designed to fit the needs of a child in our modern civilization can be furnished.

The enrollment at the Village school presented a problem that needed to be readjusted. The primary room had an enrollment of 36, the intermediate room 41 and the upper room 33. The need for a primary teacher was apparent. The State Board of Education was consulted and granted the board permission to appeal to the budget committee for permission to spend additional funds to meet the emergency. Such permission was granted and an additional teacher engaged.

In order to provide more adequately for the older boys at the Village School Mr. Clarence Craggy was engaged to teach the upper grades. Mrs. Marilyn Wing was engaged as the additional primary teacher. Both teachers were June graduates of teachers college of the 4 year curriculum. With the 4 teachers who served the district previously the staff was one which served the children conscientiously and well.

The action of the local budget committee in granting the school board permission to exceed their budgetary estimated by \$2,500 was based on the following increased costs which were estimated at the time permission was granted.

Teacher salary	\$1,533.84
Transportation	542.00
Janitor service	200.00
Equipment	178.60
	<hr/>
	\$2,454.44

The problem of the steadily increased and increasing enrollment is reflected in your expanded facilities and also in your increased financial load for education

	Elementary Enrollment	Secondary Enrollment
	Jan.	Jan.
1950	153	40
1949	141	34
1948	139	31
1947	120	32
1946	112	24
1945	103	20

In this span of 7 years the elementary enrollment has increased by 50% and the secondary enrollment has doubled. In addition high school tuition cost increased from \$100 to \$190 for the current year with an adopted rate of \$250 at Manchester for 1951-52. With tuition rate increased $2\frac{1}{2}$ times and the enrollment doubled the high school tuition costs have been increased ten fold.

The teaching staff is one of which the district can be proud. All the teachers are conscientiously striving to provide programs of work that will meet the needs of children in a complex society. The efforts to meet the individual as well as group needs requires a sympathetic understanding of the child's problem. The comments of Miss Bettina VanCamp in regards to teaching personnel revealed that the district is indeed fortunate to have such a staff. Miss VanCamp whose work as educational consultant takes her into the schools of New York, New Jersey and the New England States marvelled at the quality of teaching and physical facilities available to your children. She also commented favorably on pupil personnel.

The materials, books and supplies, are the tools which permit the teacher to carry forward the work of the school. They should be supplied in sufficient quantity to enable the teacher to work at maximum efficiency. Such is the aim. In an effort to protect the district from a spiralling market in paper stock, orders for much of '51-'52 supplies were placed in December at 1950 price levels with delivery accepted when available with billing July 1, 1951. Although these two items are a small part of the educational budget they represent an important part of the educational program.

BUDGET

The real increase in the operational budget is \$6,079.08. An analysis of the major divisions of the budget indicate the areas and amounts of increase.

ADMINISTRATION

The increase in this area is \$99.78. The statute involving the allocation of monies for items in this area is based on two factors, equalized valuation of the community and number of pupils. The increase of approximately 10% in per capita tax indicates a 10% increase in number of pupils and this is reflected in every item in the administration area except district officers salaries. In short increased enrollment accounts for the increase in this area.

INSTRUCTION

This area accounts for \$1,401.74 of the increase. An additional teacher and increased portion due to increased enrollment of music teacher salary account for most of the increase in this area.

PLANT

An increase of \$499 is indicated in this area. Increased janitorial service, increased heating expense, supplies, and electric light bills all of which are caused by the use of an additional room make up the whole increase here.

AUXILIARY AGENCIES

Approximately 75% of the increase is in this area. High School tuition is the main causative factor. The state average cost of high school instruction is \$252.04. This figure is the district's legal responsibility. Manchester has established its tuition rate for 1951-52 at \$250. The prospective enrollment is 49 pupils at secondary level. The gross amount for high school tuition is \$11,750. This figure can not be controlled at the local level. It represents an increase of \$4,450. The balance of the increase in this area \$691.66 is in transporta-

tion and salary of the nurse. These small increases are caused by increased elementary enrollments. The total increase in this area is \$4,641.66.

FIXED CHARGES

These two items show an increase of \$89.35 all of which occurs in the retirement item. This is statutory and can not be controlled.

OTHER AREAS

All other areas show decreases.

In addition to these increases in operational costs the necessity of a deficiency appropriation makes the total increase \$8,806.53 above the estimated expenditures for the current year.

STATE AID

The suggested program for state financial assistance is of vital importance to the district. The financial burden imposed on local real estate is becoming oppressive. The district is in a position where little if any control can be exercised by local authority. High school tuition, transportation, two items, that comprise about 40% of the operational budget, are practically statutory. Other statutory items account for approximately 5%. In light of these facts the need for relief is self evident. The proposed program if adopted would alleviate the tax burden considerably.

The physical plant is in fine condition, materials are available for teachers and pupils, and the morale of pupils and teachers is high. That these conditions obtain is due to the philosophy of the whole community. School officials, parents,

pupils and citizens all contribute their share to provide a fine educational opportunity for the children. The opportunity to serve such a school community is a pleasant duty.

Respectfully submitted,
EVERTON H. PARKINSON,
Superintendent of Schools.
